Monitoring SDG 10 and the limitations

SDG 10. Reducing inequality within and among countries

SDG 10 is a stand-alone goal on reducing inequality with **10 targets**:

- **4 targets:** address within country inequality across social, economic and political dimensions aiming to expand prosperity, inclusion, and social protection.
- **3 targets:** reduce inequality among countries with attention to global financial markets, migration, and the representation and voice of developing countries in global decision making.
- **3 MOI targets:** directing resource flows toward countries most needed

Only one quantitative target (on shared prosperity):

Target 10.1 By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average.

Global Monitoring of SDG 10

The Inter-agency and Expert Group on SDG indicators (IAEG-SDGs) was tasked to develop the global indicator framework that “... address all Goals and targets, ..., and **preserve the political balance, integration and ambition contained therein**”(Resolution 70/1).

A total of **11 global indicators** were proposed for monitoring Goal 10:

- Income inequality: 1) growth rate of bottom 40% vs. average; 2) % of people living below median income, by sex, age, disabilities
- Other includes: labour share of GDP, financial soundness indicators, migration (policy, remittance and recruitment cost), tariff applied to LDCs, and ODA, FDI and other flows

Monitoring Goal 10 – Shared prosperity

- In 70 of the 91 countries for which data were available, incomes of the bottom 40 percent improved between 2010 and 2015. In addition, in 54 percent of those 91 countries, their income grew faster than the average.

Monitoring Goal 10 – Income inequality

Indicator 10.2.1 Proportion of people living below 50 per cent of median income, by sex, age and persons with disabilities

Correlates strongly with other inequality measures

Rationale of indicator 10.2.1

- Proposing to use same data as used for poverty measures in SDG 1.1.1 and inequality measures in SDG 10.1.1 – widely accepted and tested indicators with established standards
- Data available and indicators calculated for 163 countries and 1500+ data points.
- Disaggregation and aggregation limited

Other SDG Inequality Monitoring -- some examples

Gender Inequality

Women spend about **three times more hours** in unpaid domestic and care work than men

Women in parliament-
23% in 2018

Fewer than a third of senior- and middle-management positions were held by women.

Inequality by age, access to health care

Youth were **three times more likely** to be unemployed than adults in 2017

Births attended by skilled health personnel (%)

Inequality by geographical location

Share of households per « Basic Unmet Needs » index, Colombia

Colombia

Zooming into
Cundinamarca
a Department

%

7.11 - 24.99

25.00 - 34.11

34.12 - 79.20

No data available

National Administrative Department of
Statistics, 2005

Providing Basic Services and Social protection systems to all to reduce poverty and inequality

Only 45 per cent of the world's population
are covered by at least one social
protection cash benefit

Proportion of vulnerable populations
covered by social protection systems
is **still low**

Improving global SDG monitoring on Inequality

SUSTAINABLE DEVELOPMENT GOALS

Improving global SDG monitoring on Inequality

- 2020 Comprehensive Review of the Global indicator Framework – an opportunity to improve the monitoring on SDG 10 and other targets related to inequality
- Improving work on data disaggregation
- Linking policies with data and monitoring
- Understanding and monitoring the intersectionality of inequality

Link vulnerable groups with their policy priorities

– e.g. International Migrants

Policy priorities:

- Provide access to basic services (education and health care) and social protection for migrants; (Priority targets: 1.3, 3.8, 4.5 and 11.1)
- Ensure fair recruitment, decent work and labour rights protection for migrants;
- Eliminate all forms of discrimination and reduce violence against migrants; and
- Ensure access to information for migrants.

Link vulnerable group with their policy priorities

– e.g. with disabilities

Policy priorities:

- Poverty eradication; (Priority indicators : 1.1.1, 1.2.1, 1.3.1, 10.2.1)
- Education;
- Employment;
- Health;
- Accessibility

Thank you for your
attention!
