

Poverty, inequality: what's next?

François Bourguignon
Paris School of Economics and

Helsinki , UNU-WIDER, September 2018

A suggested Inequality Dashboard

1. Top x% gross income share (tax and NA data)
2. Living standard Gini (Household Surveys, consumption)
3. Individual earnings inequality indicator
4. Wealth inequality indicator
5. Share of earnings/living standard inequality explained by family background
6. Living standard correlation with school achievements (PISA-type)
7. Living standard correlation with Self Reported Health Status
8. Informality (labor contract)
9. Earnings/income gender gap
10. Earnings/income ethnicity gap

+ Poverty (absolute, relative, multi-dimensional...)
