

DATA APPENDIX

Trends in global inequality using a new integrated dataset

WIDER Working Paper 2021/61

Carlos Gradín*

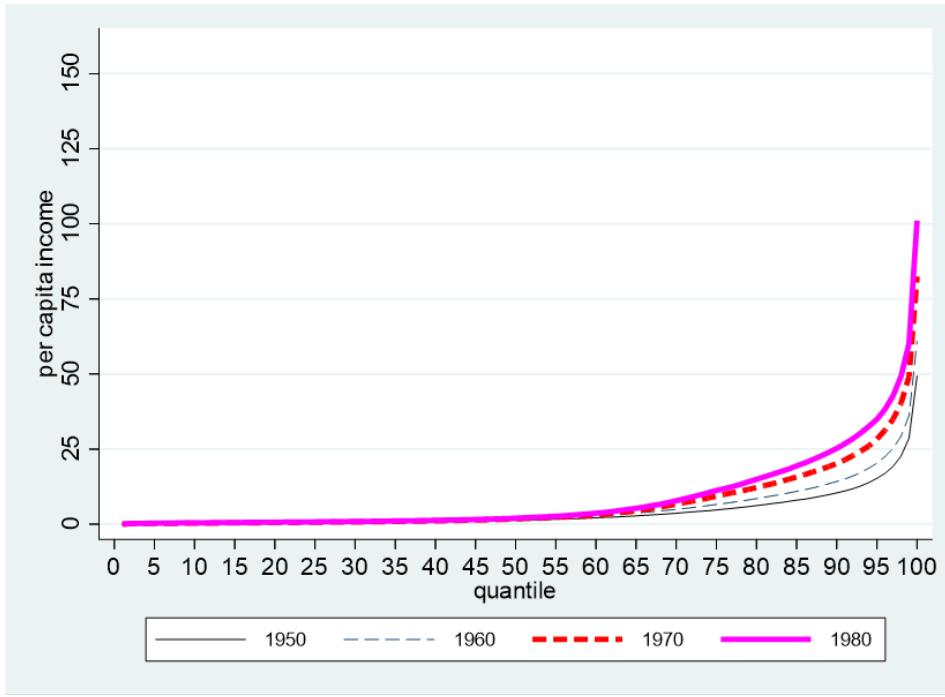

March 2021

* UNU-WIDER, Helsinki, Finland, gradin@wider.unu.edu

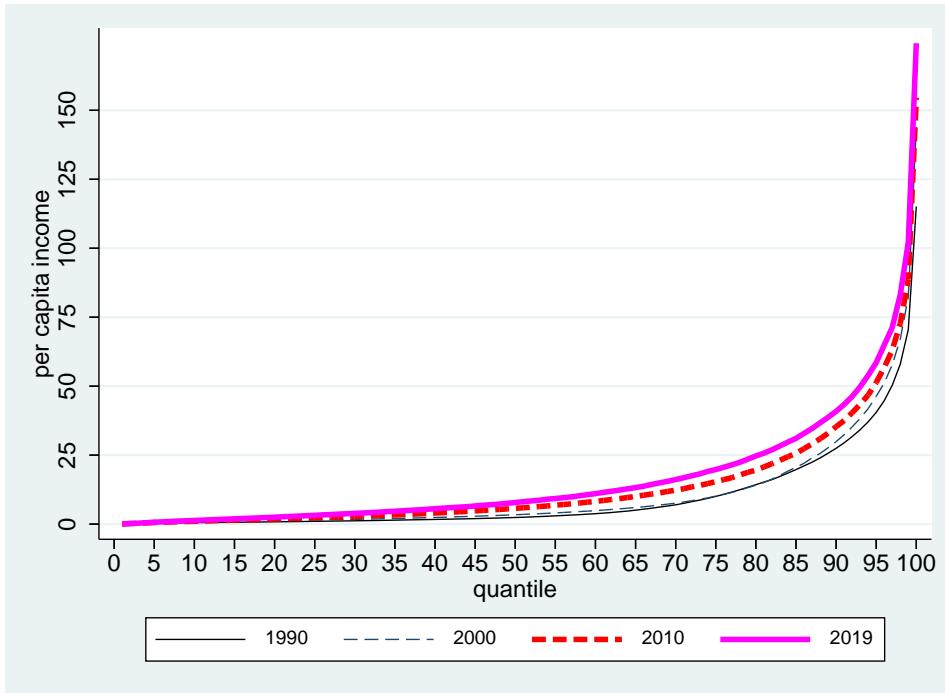

Appendix A: Quantile curves

Figure A1: Quantile curves in the global income distribution

a. 1950–80

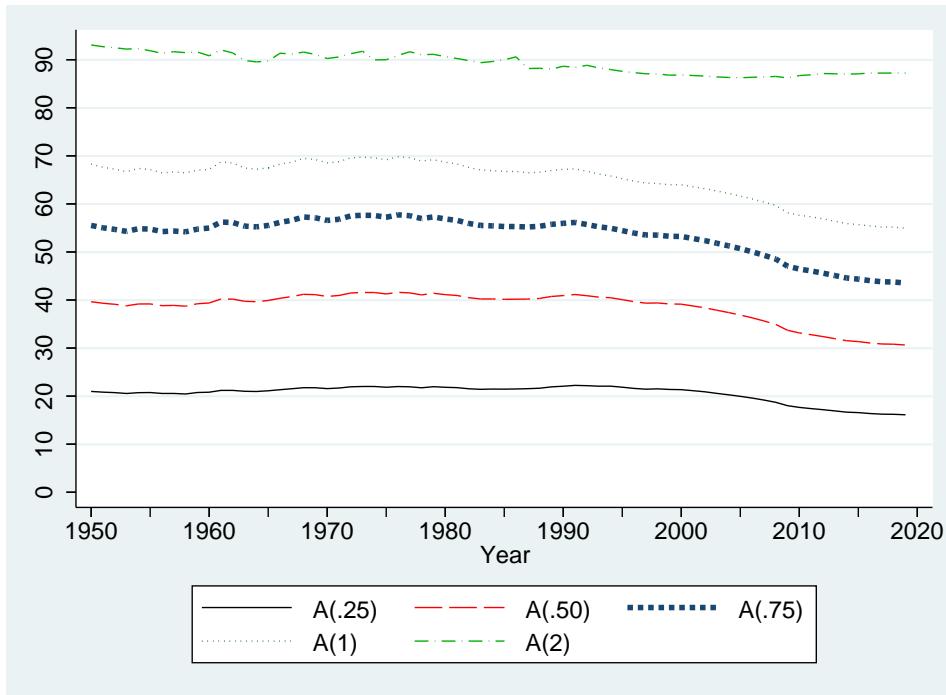

b. 1990–2019

Source: author's construction based on the WIID.

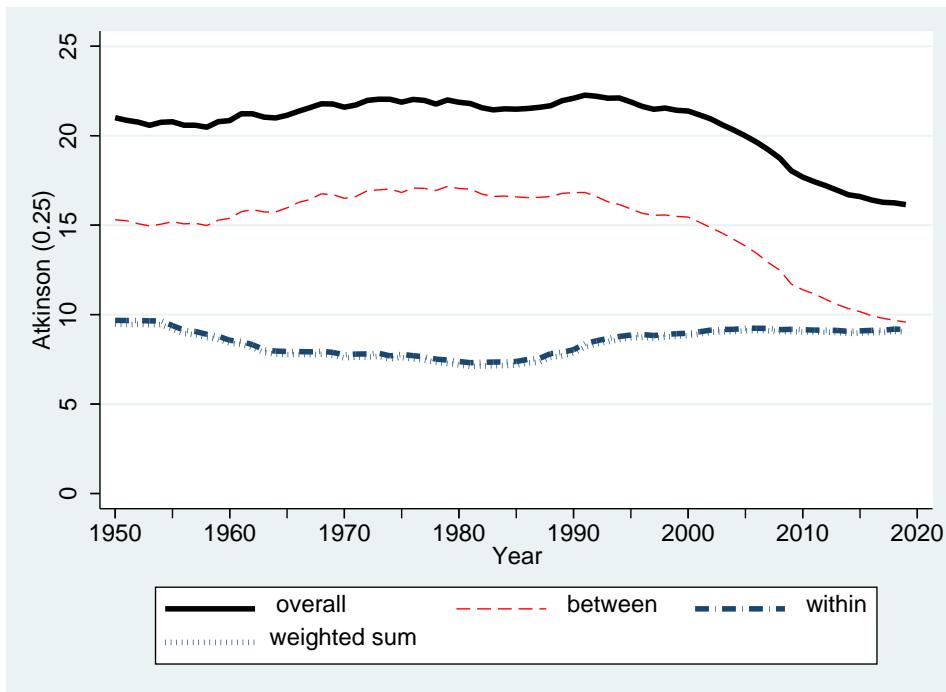

Appendix B: Global inequality, Atkinson family of measures

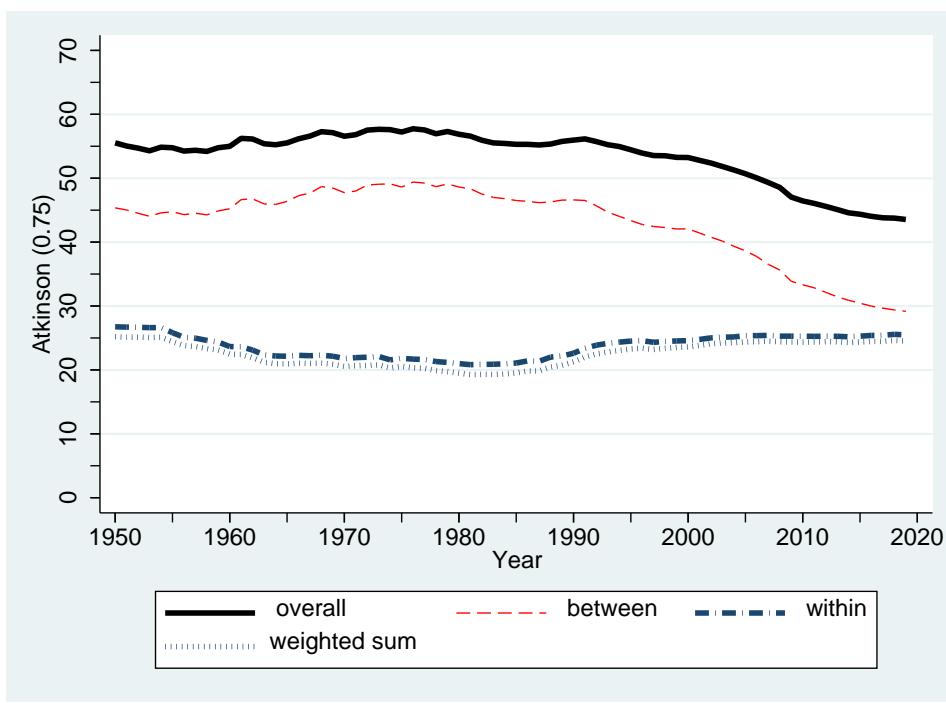

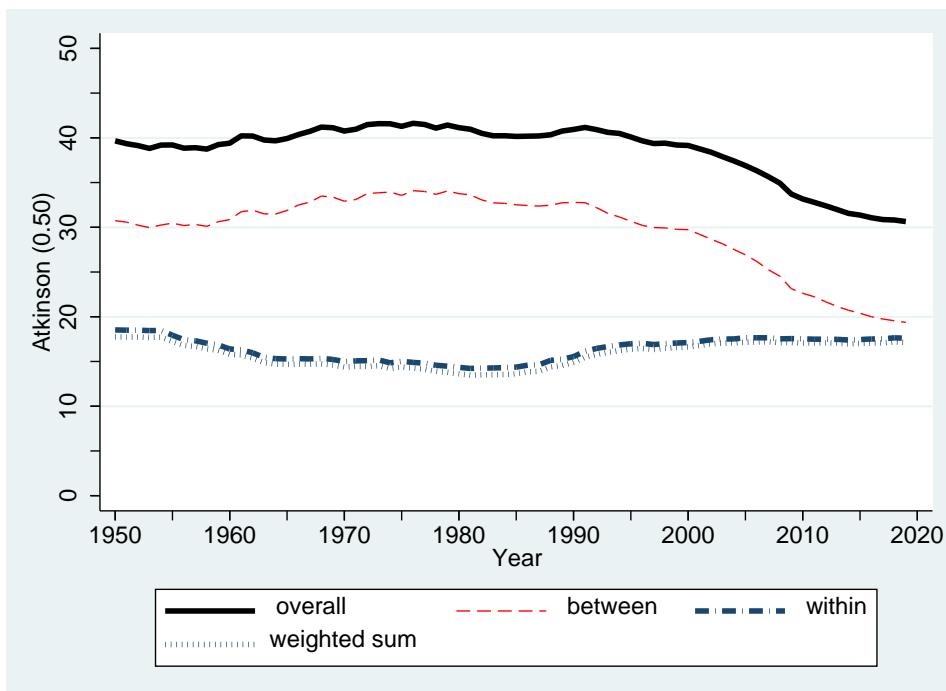

Figure B1: Relative measures of global income inequality, Atkinson family

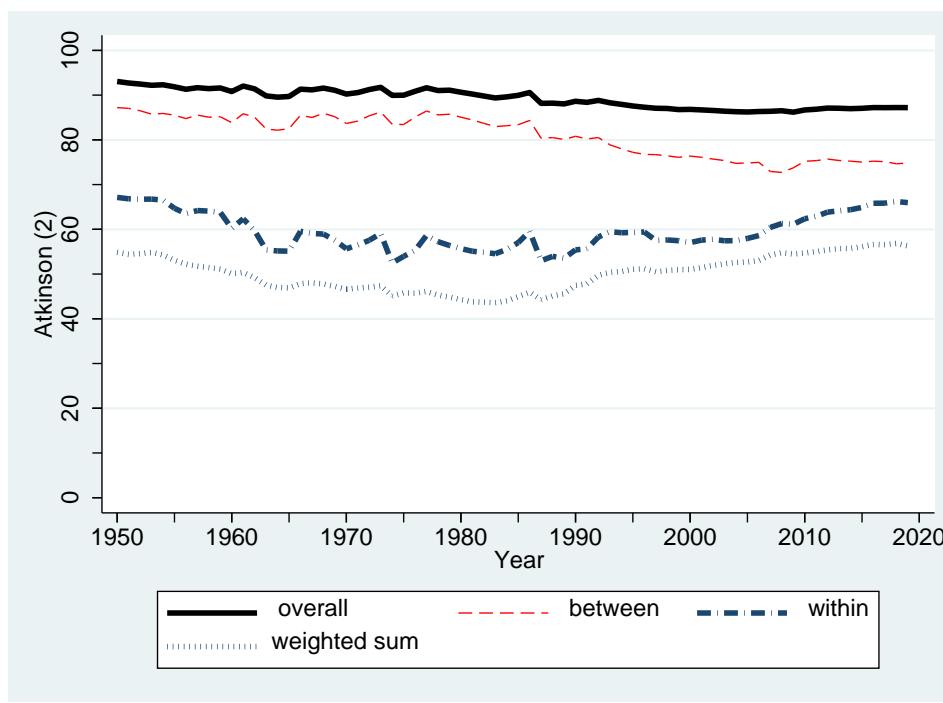

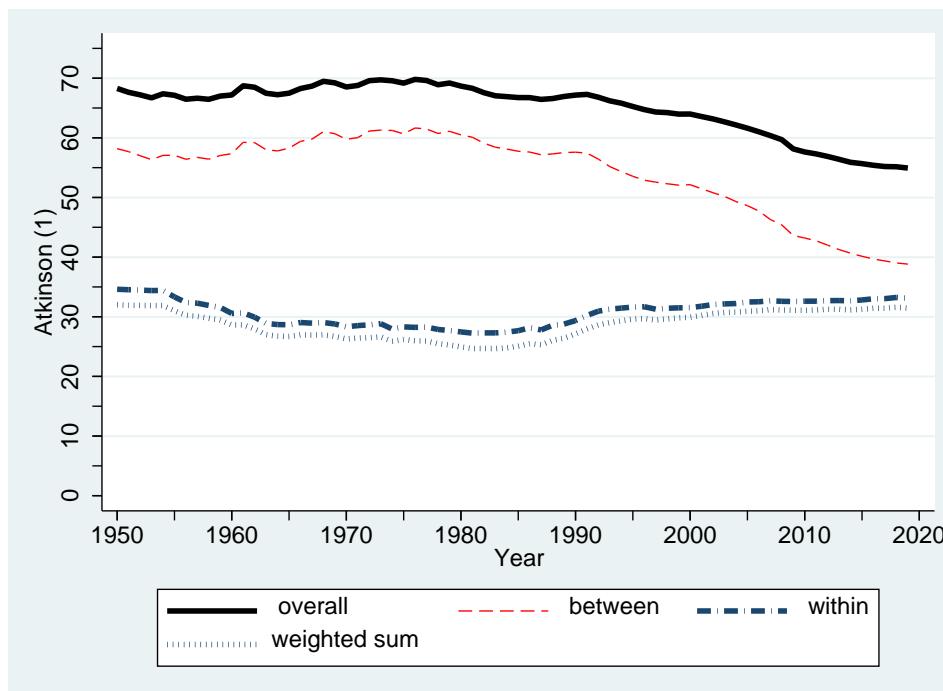

Source: author's construction based on the WIID.

Figure B2: Inequality between and within countries, Atkinson family

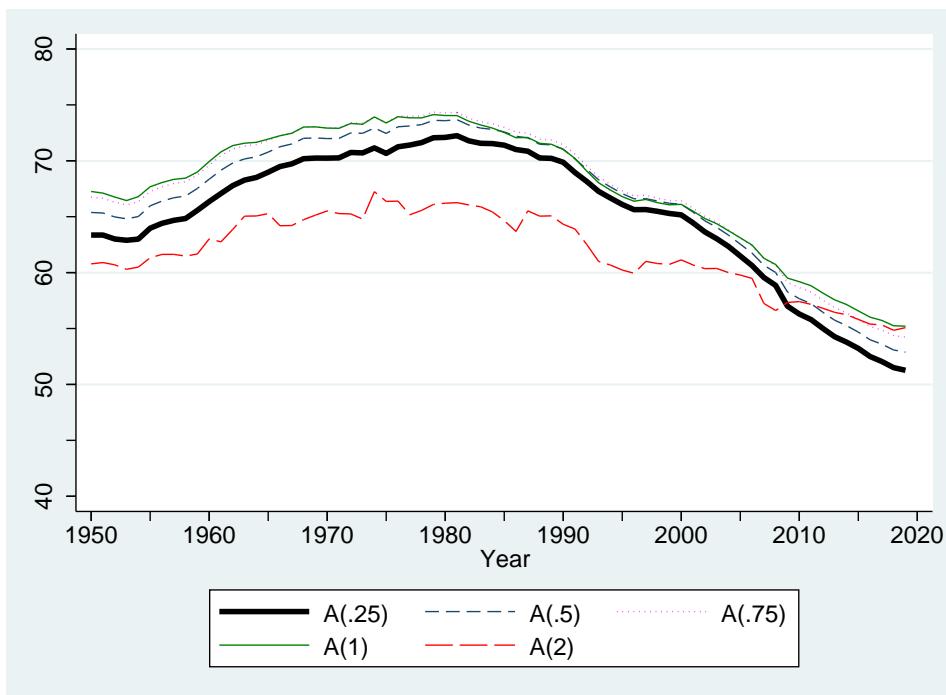

Source: author's construction based on the WIID.

Figure B3: Shapley between-country contribution, Atkinson family (%)

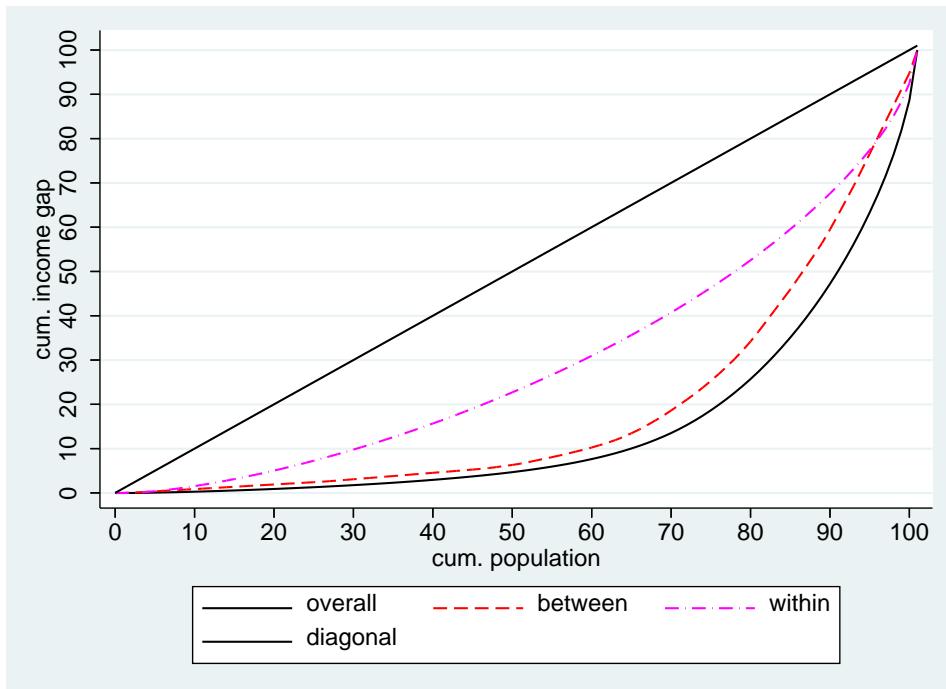

Source: author's construction based on the WIID.

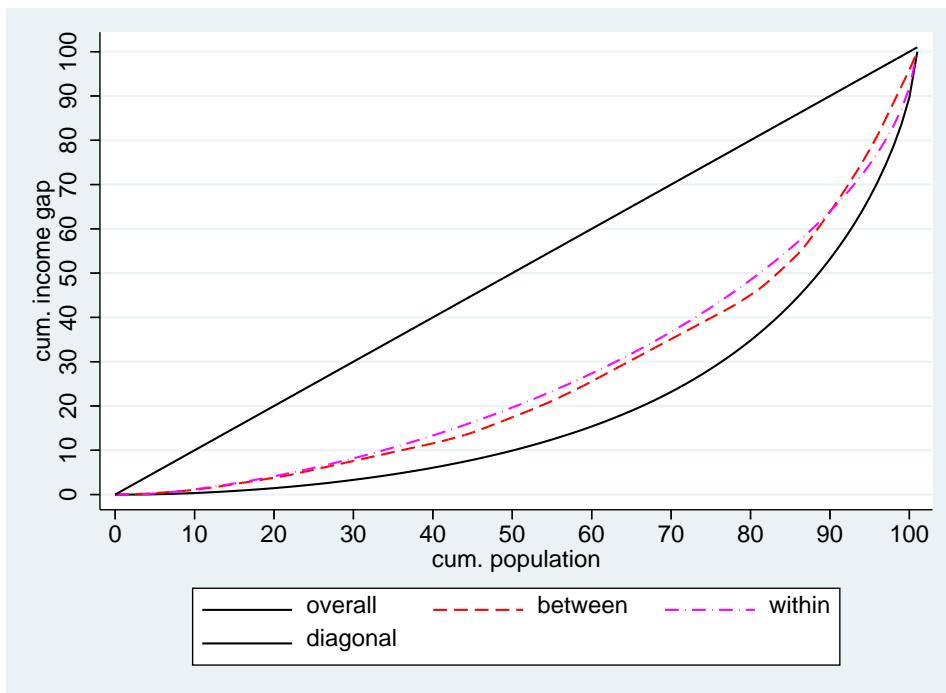

Appendix C: Relative Lorenz curves—between- and within-country distributions

Figure C1: Lorenz curves of between- and within-country distributions, selected years

a. 1980

b. 2019

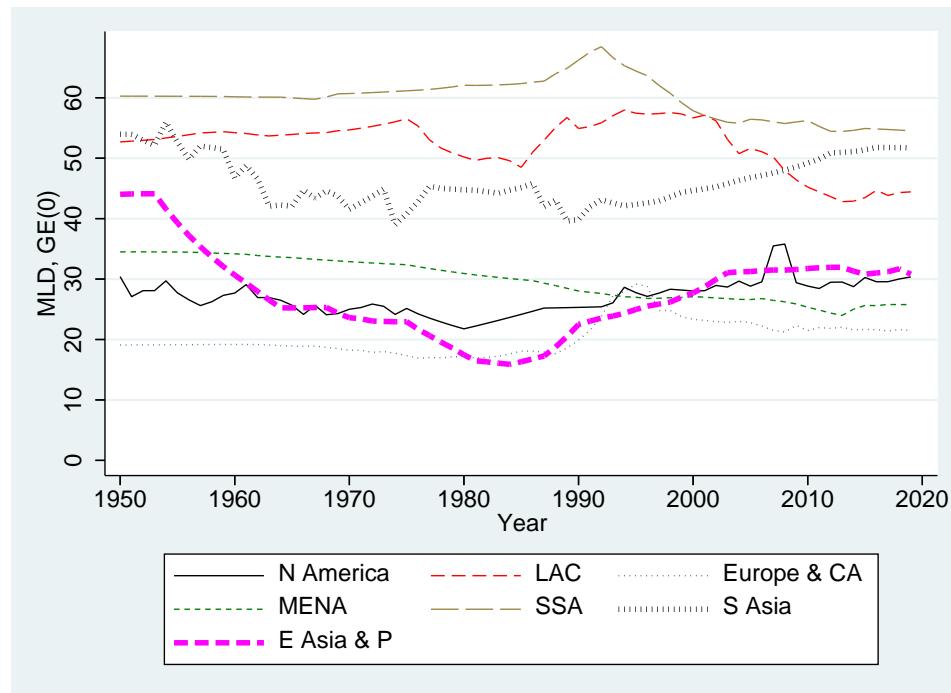

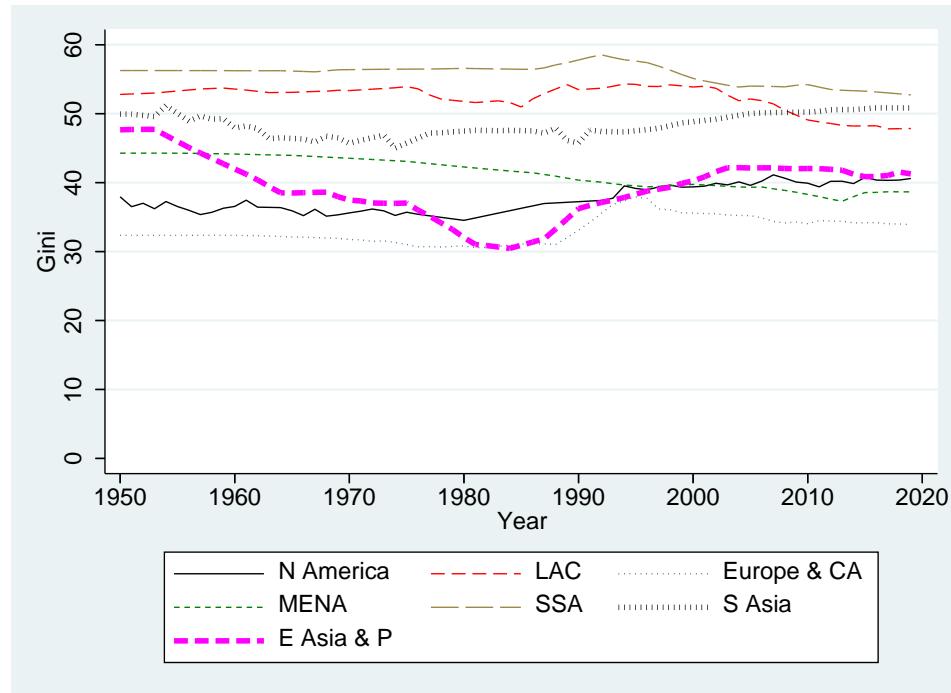

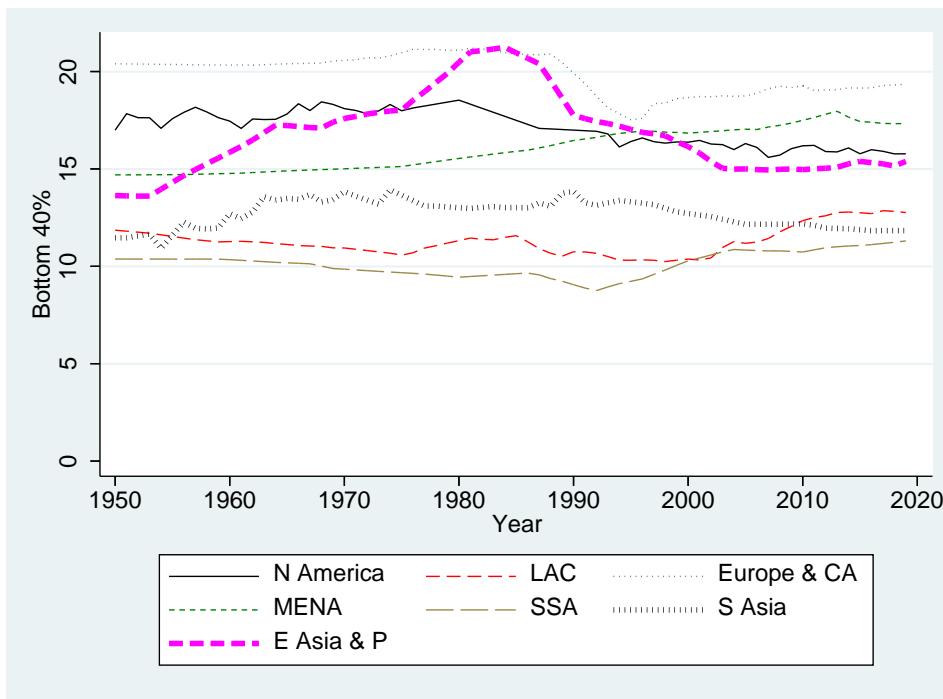

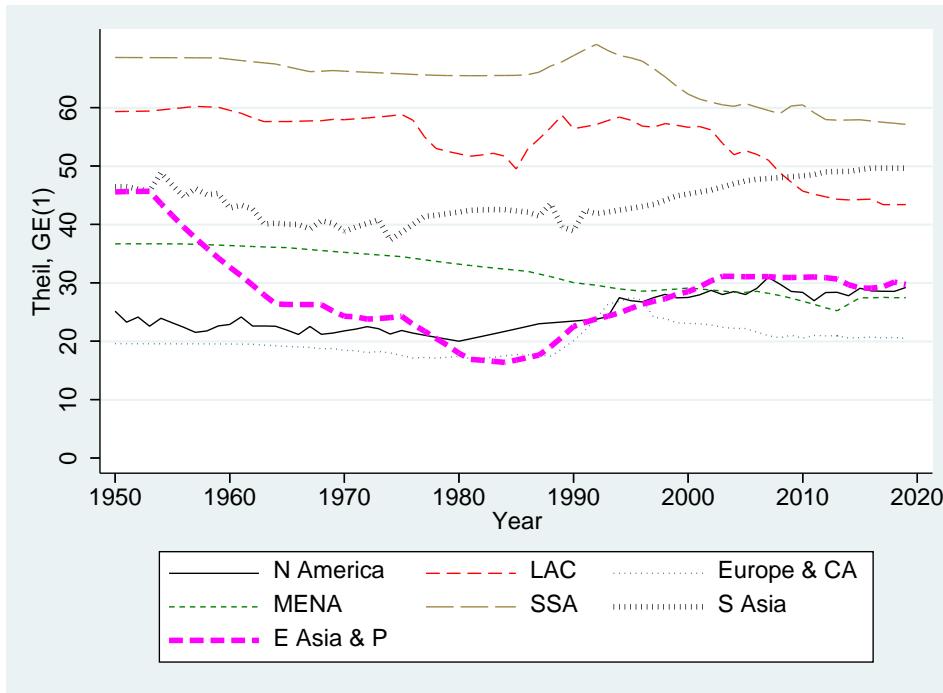

Source: author's construction based on the WIID.

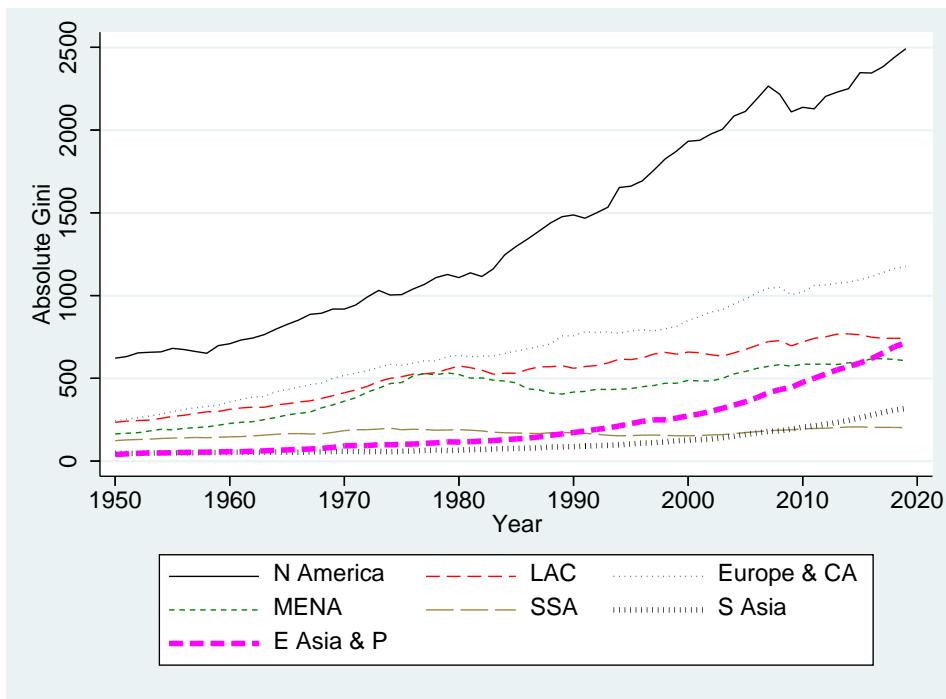

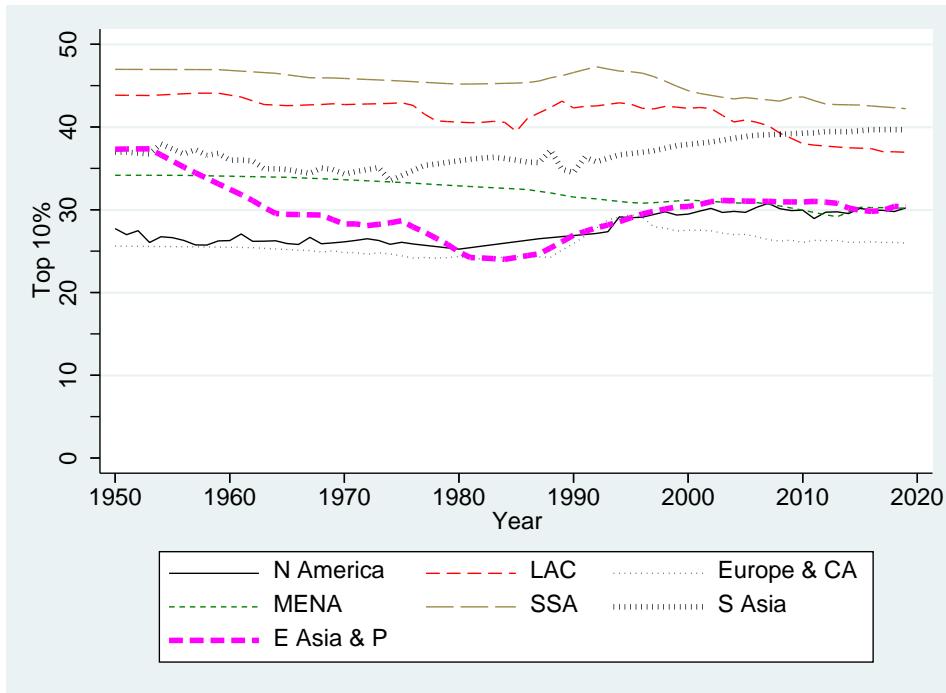

Appendix D: Within-country inequality by region and income group

Figure D1: Population-weighted average inequality by region and income group

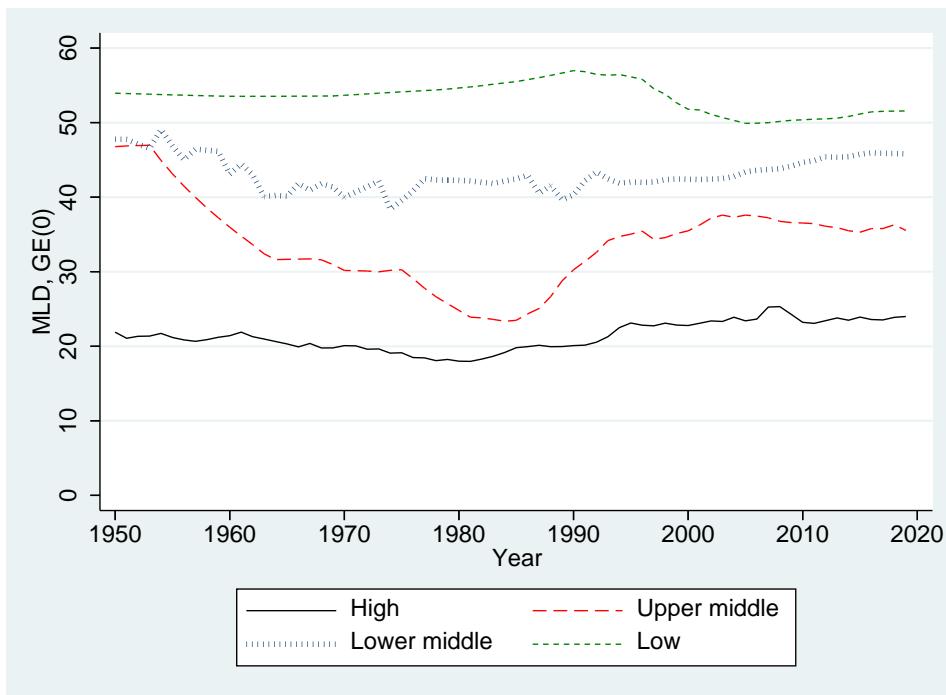

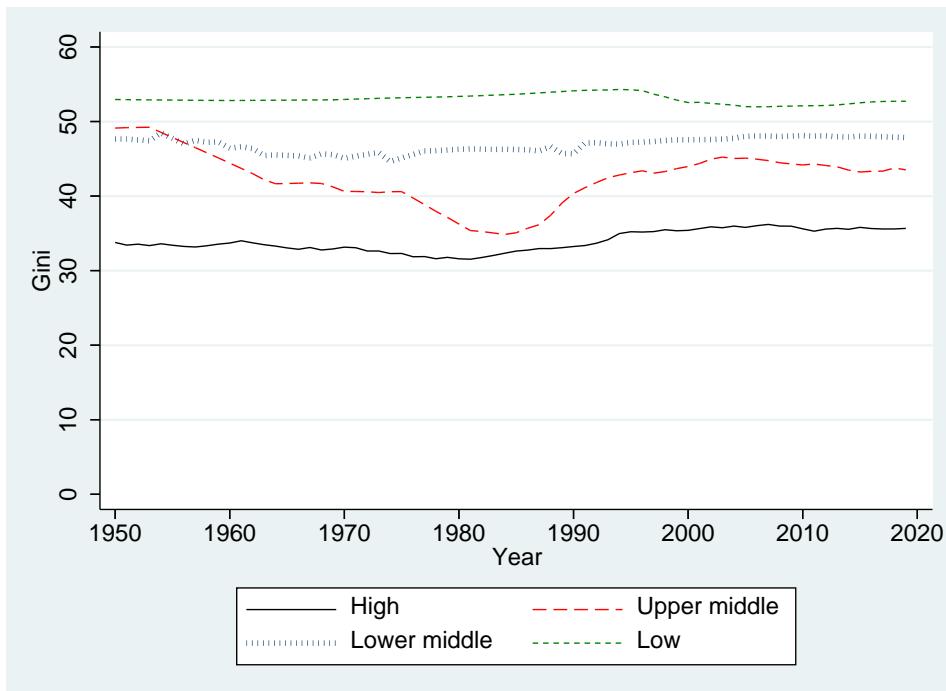

a. By geographical region

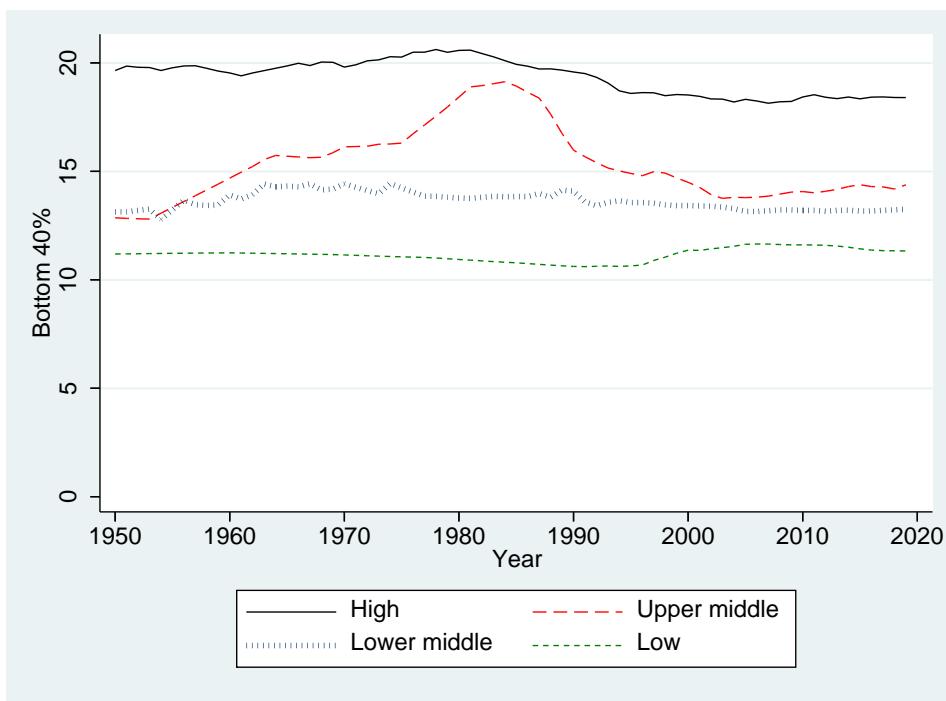

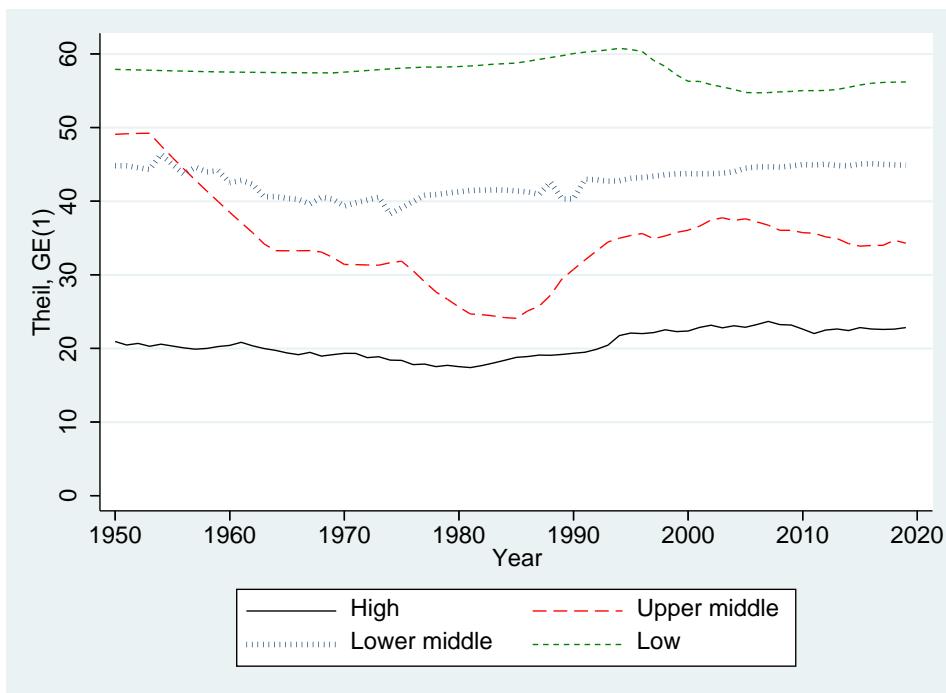

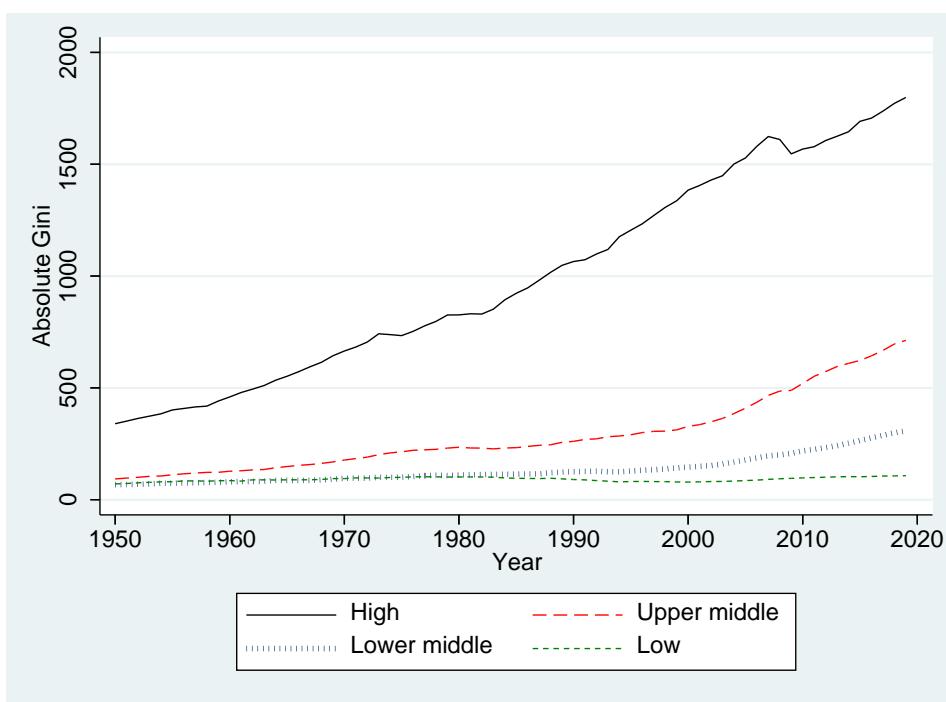

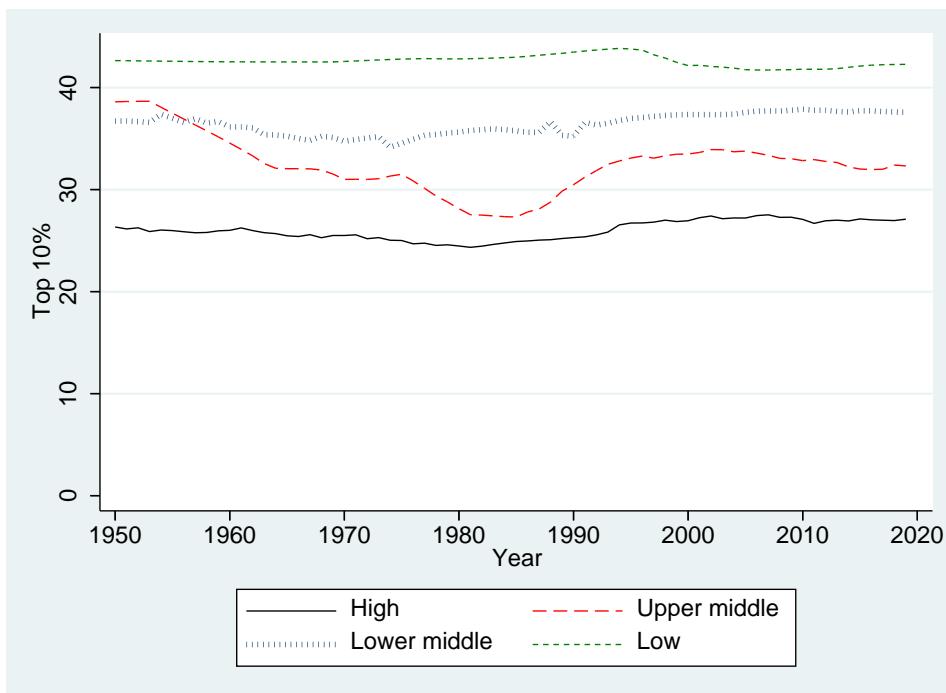

b. By income group

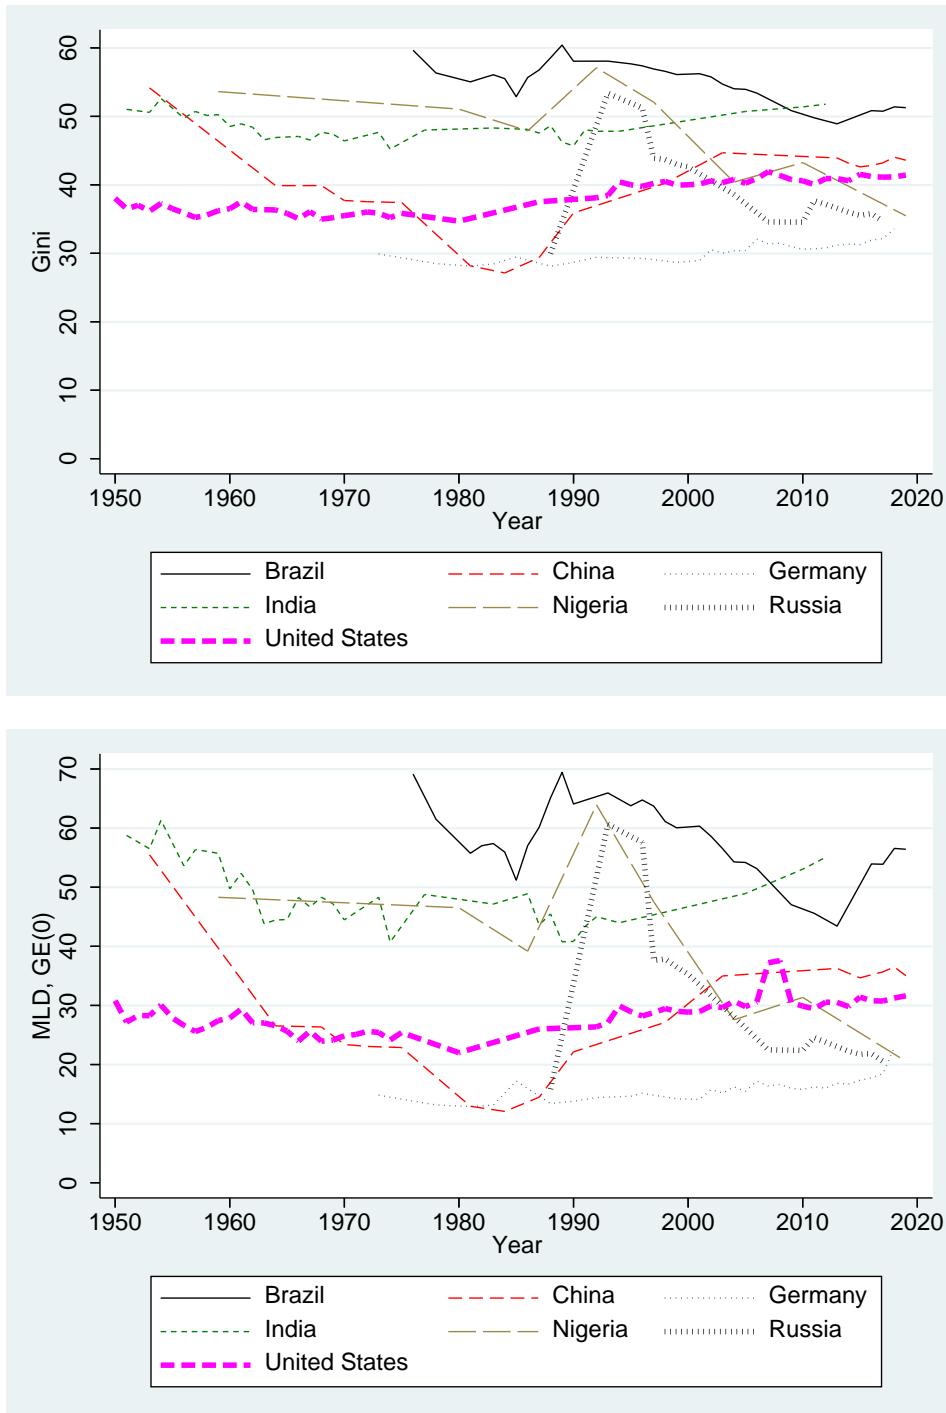

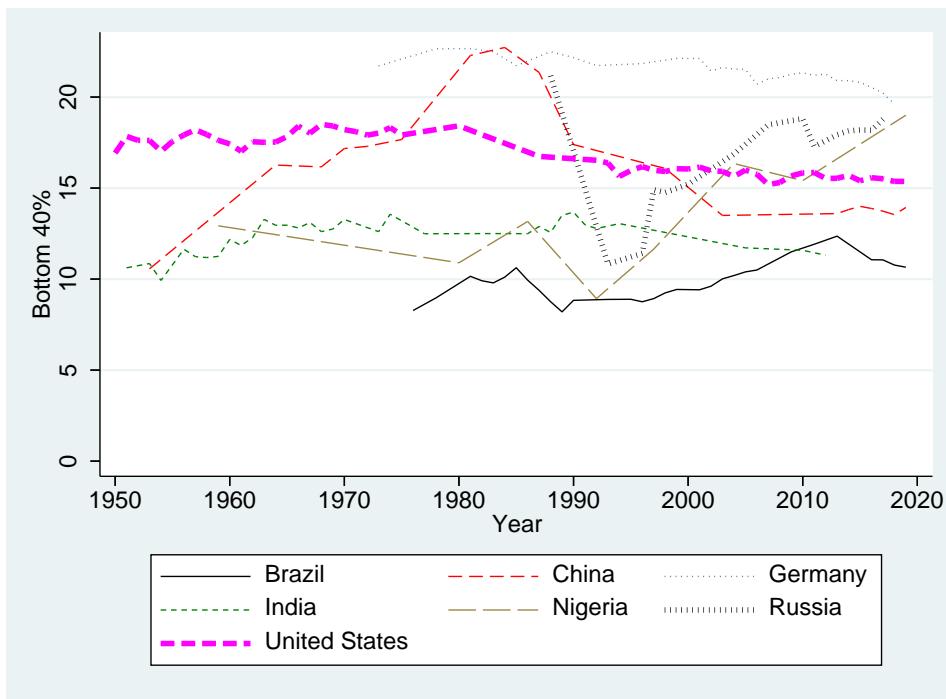

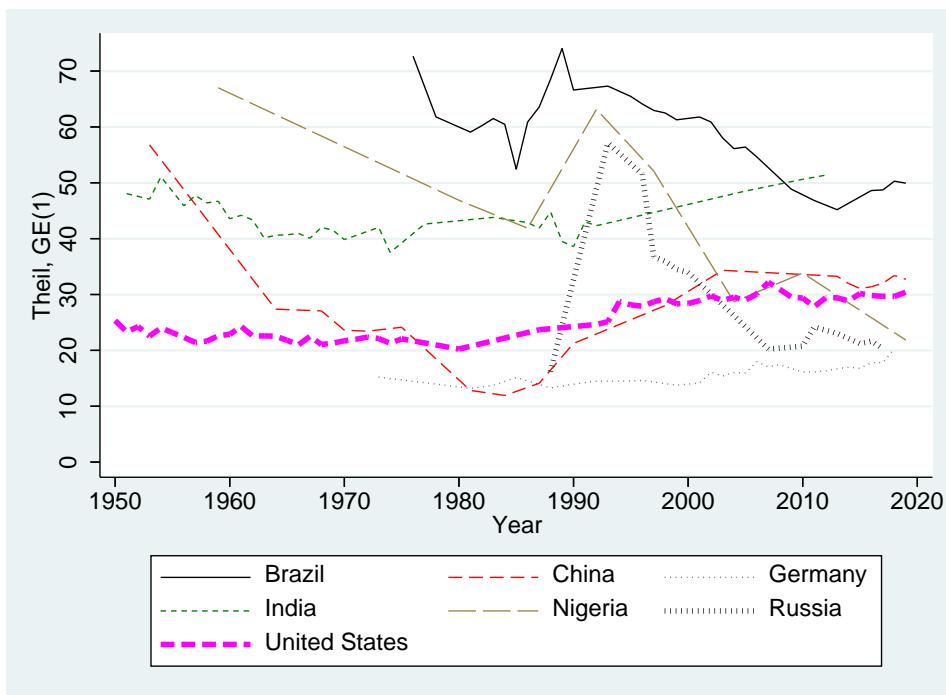

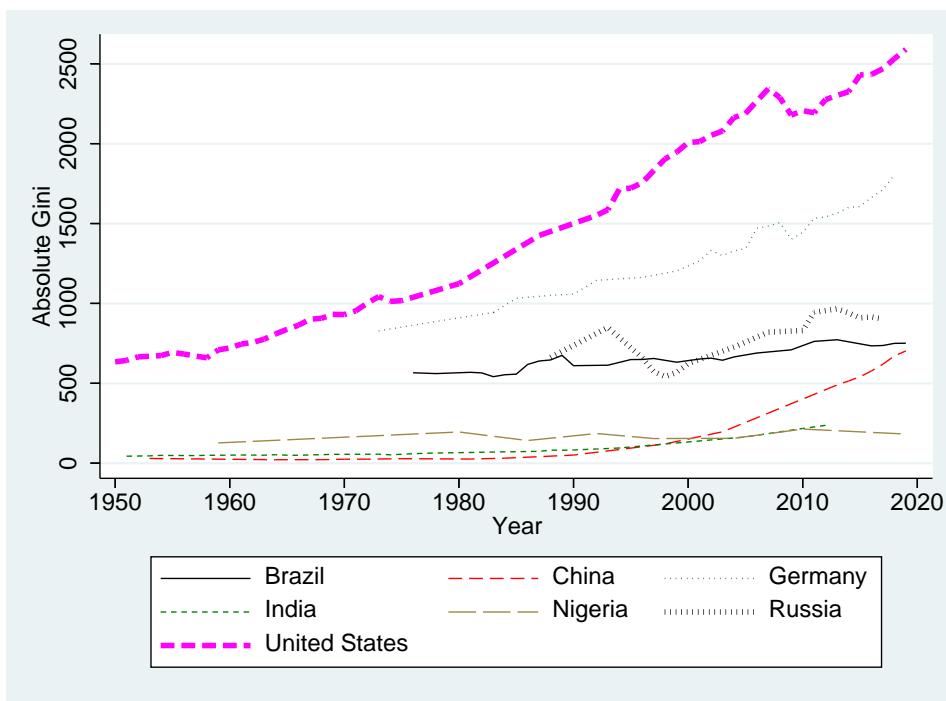

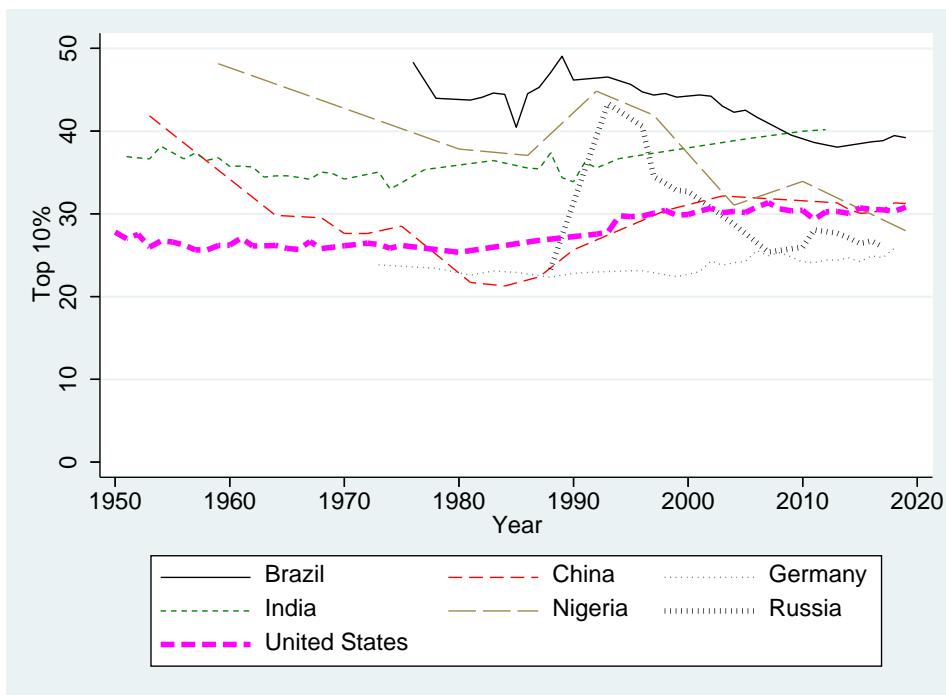

Source: author's construction based on the WIID.

Appendix E: Within-country inequality in selected countries

Figure E1: Inequality in selected countries

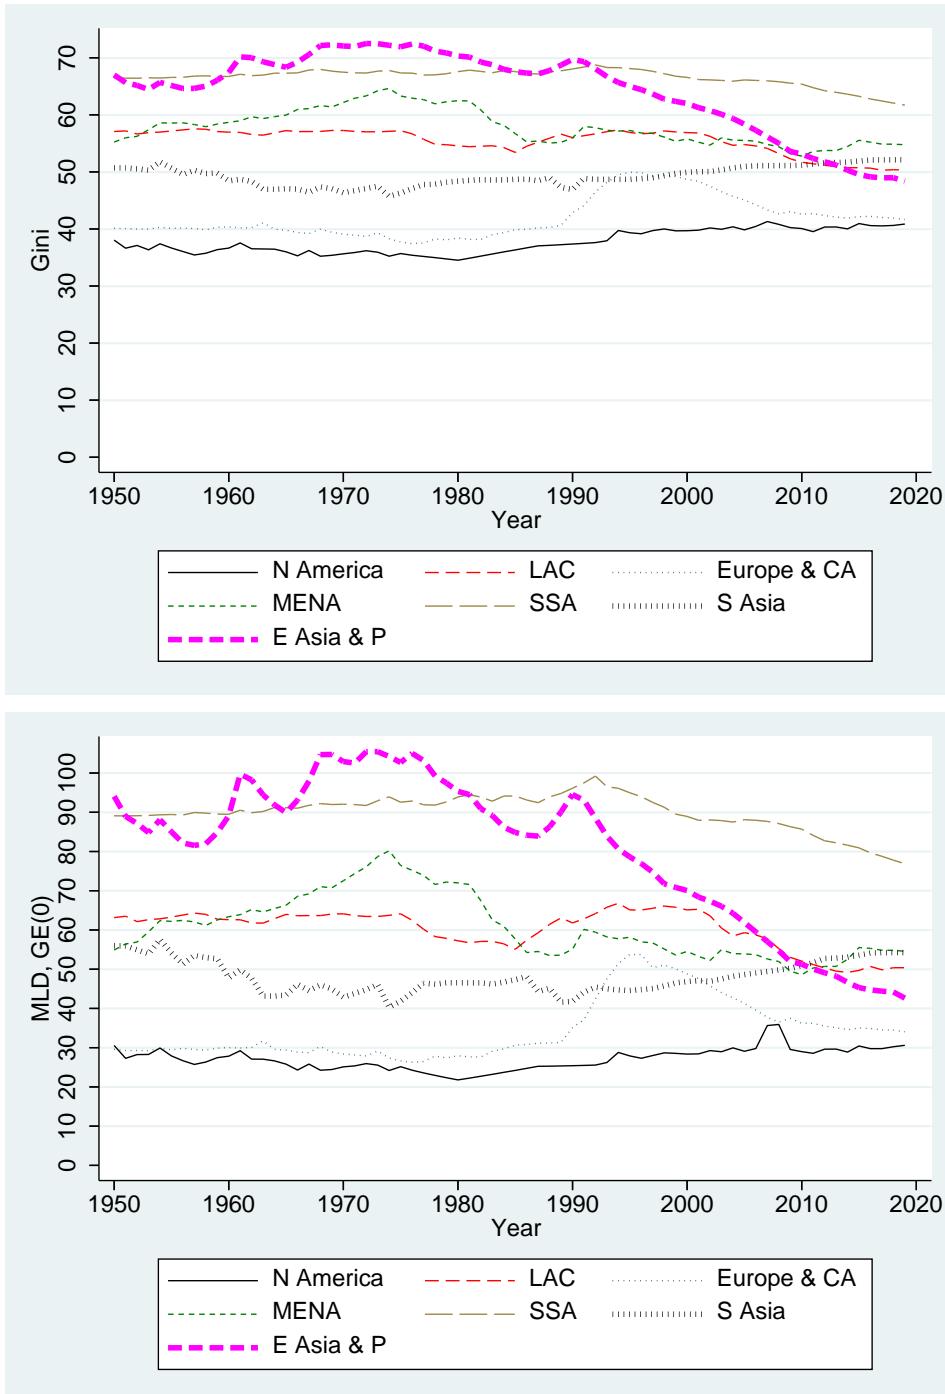

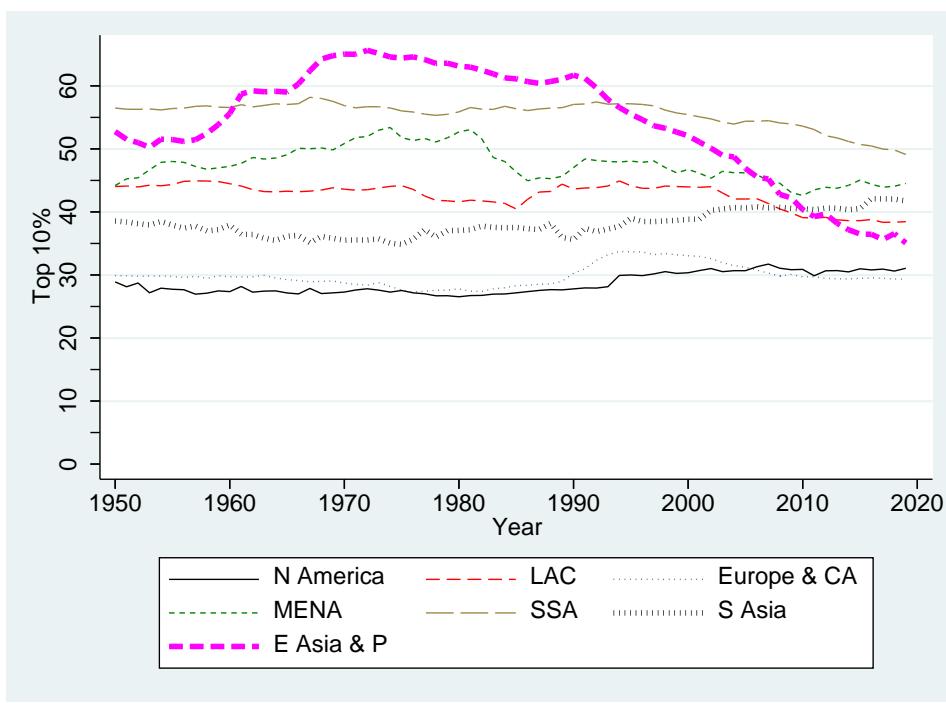

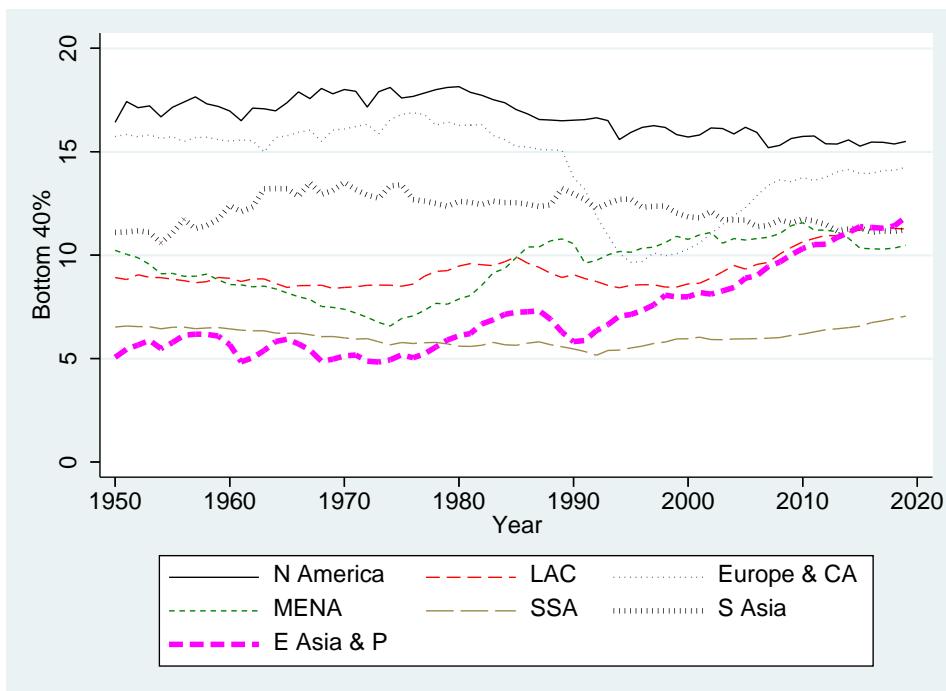

Source: author's construction based on the WIID.

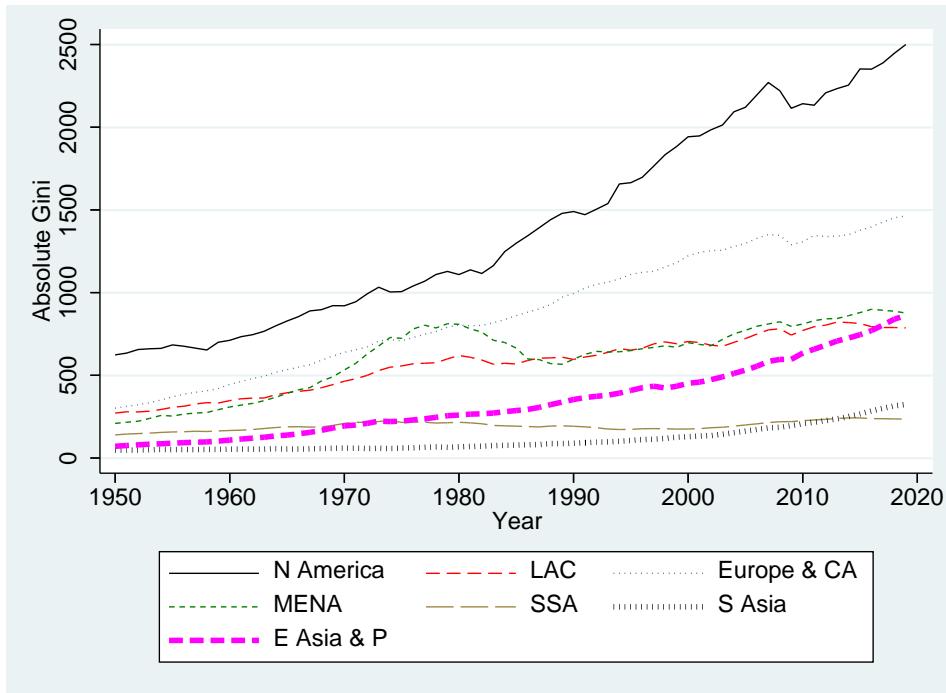

Appendix F: Global inequality by region and income group

Figure F1: Global inequality by region and income group

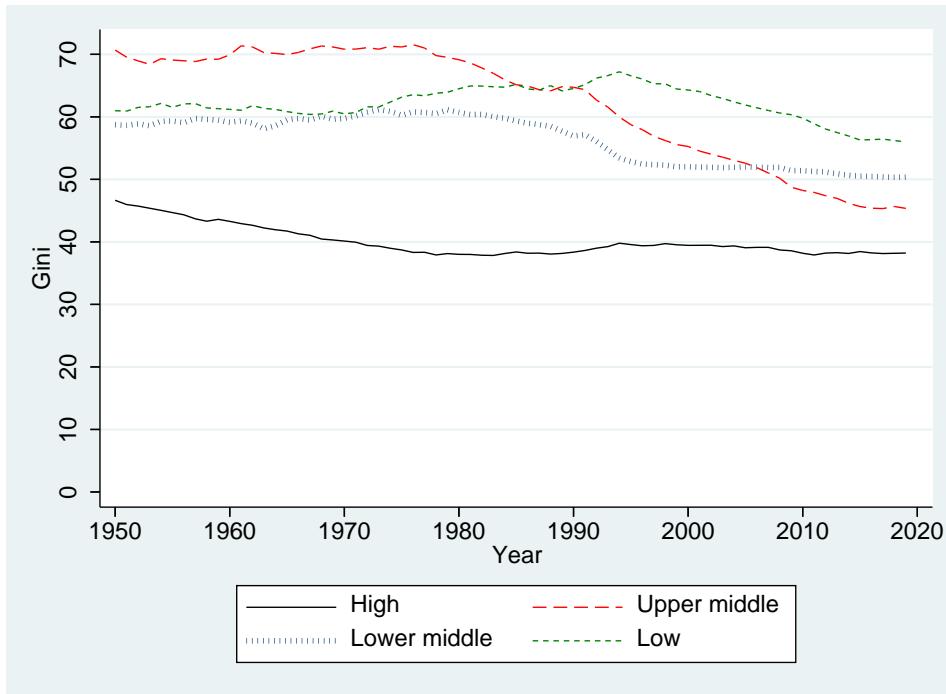

a. By region

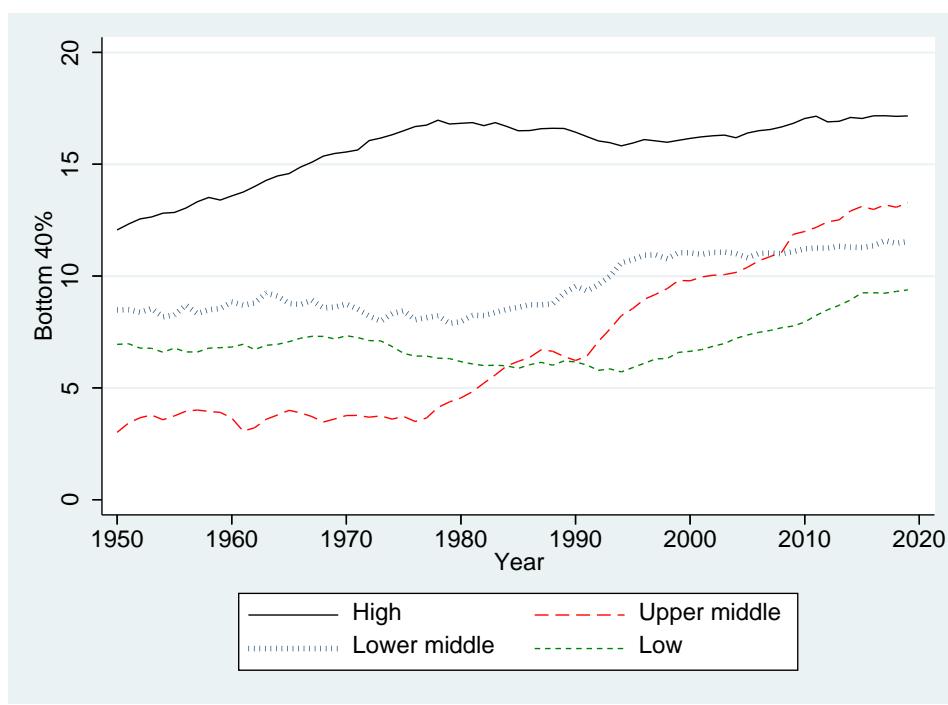

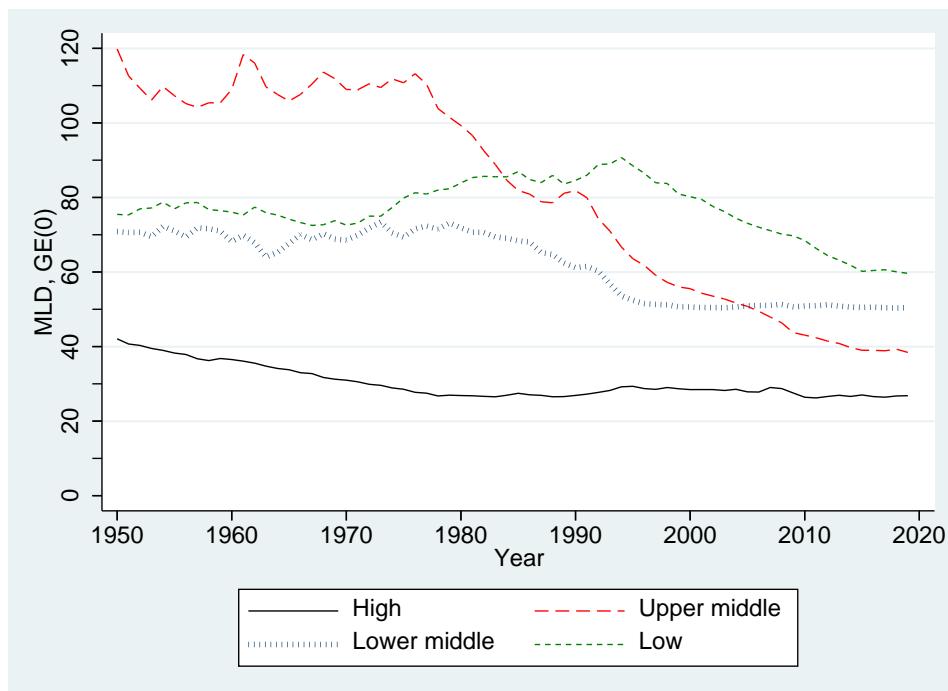

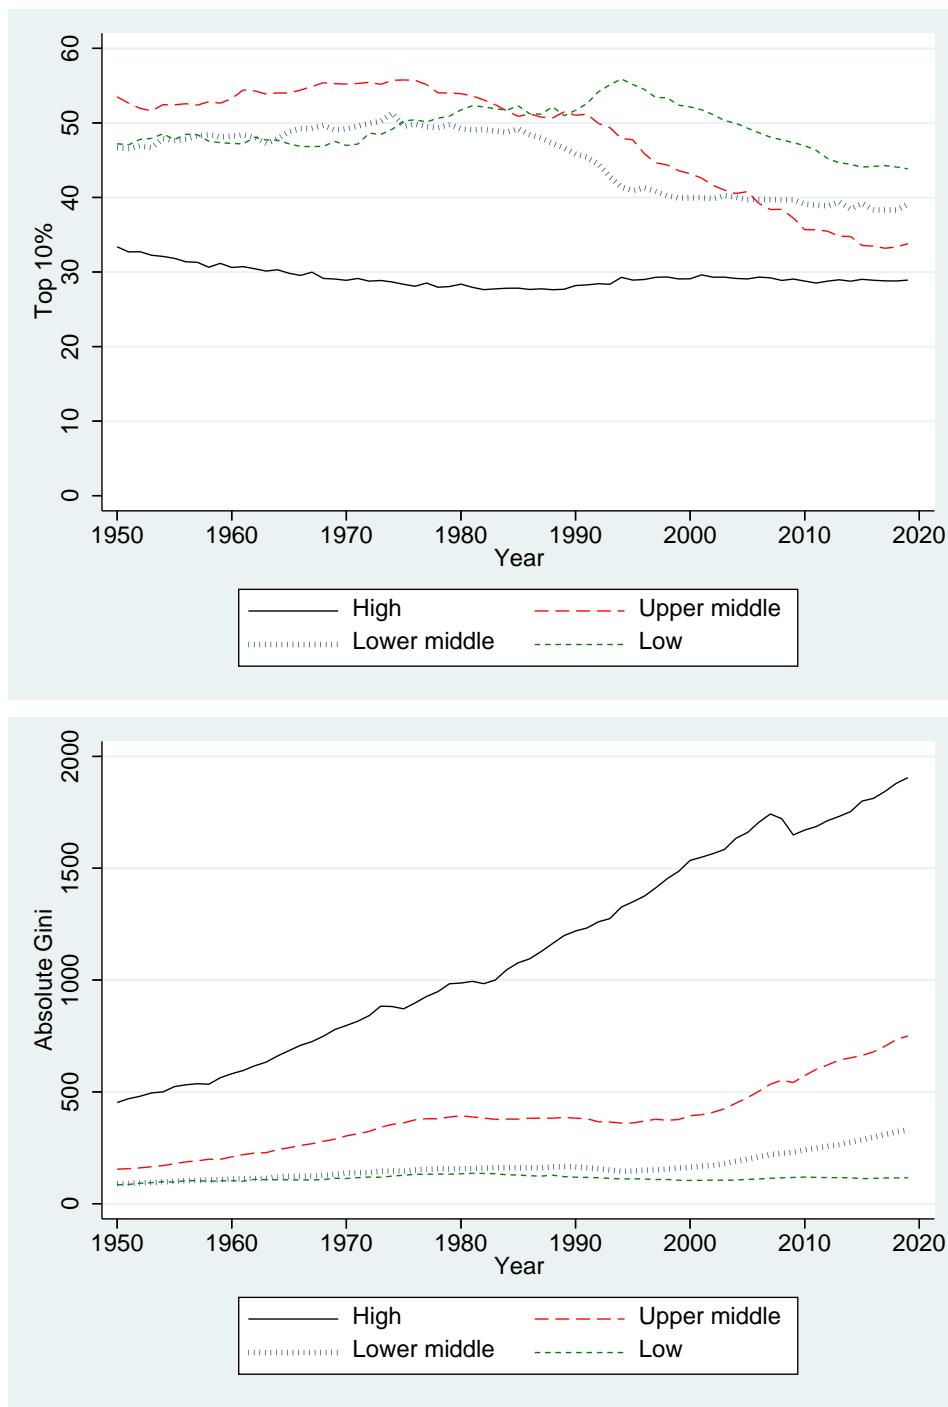

b. By income group

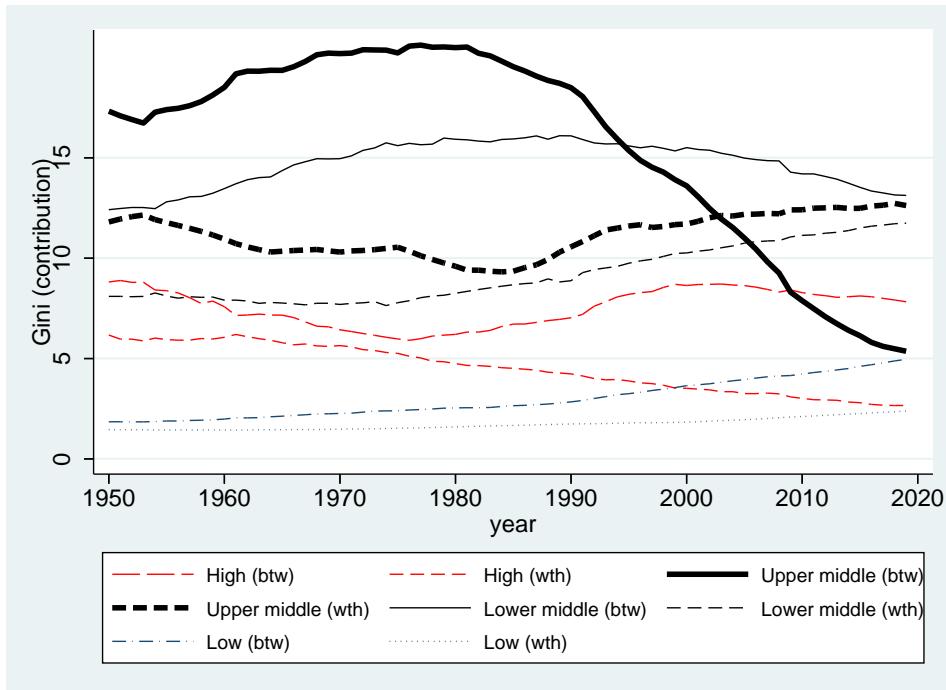

Source: author's construction based on the WIID.

Appendix G. Contributions to global inequality

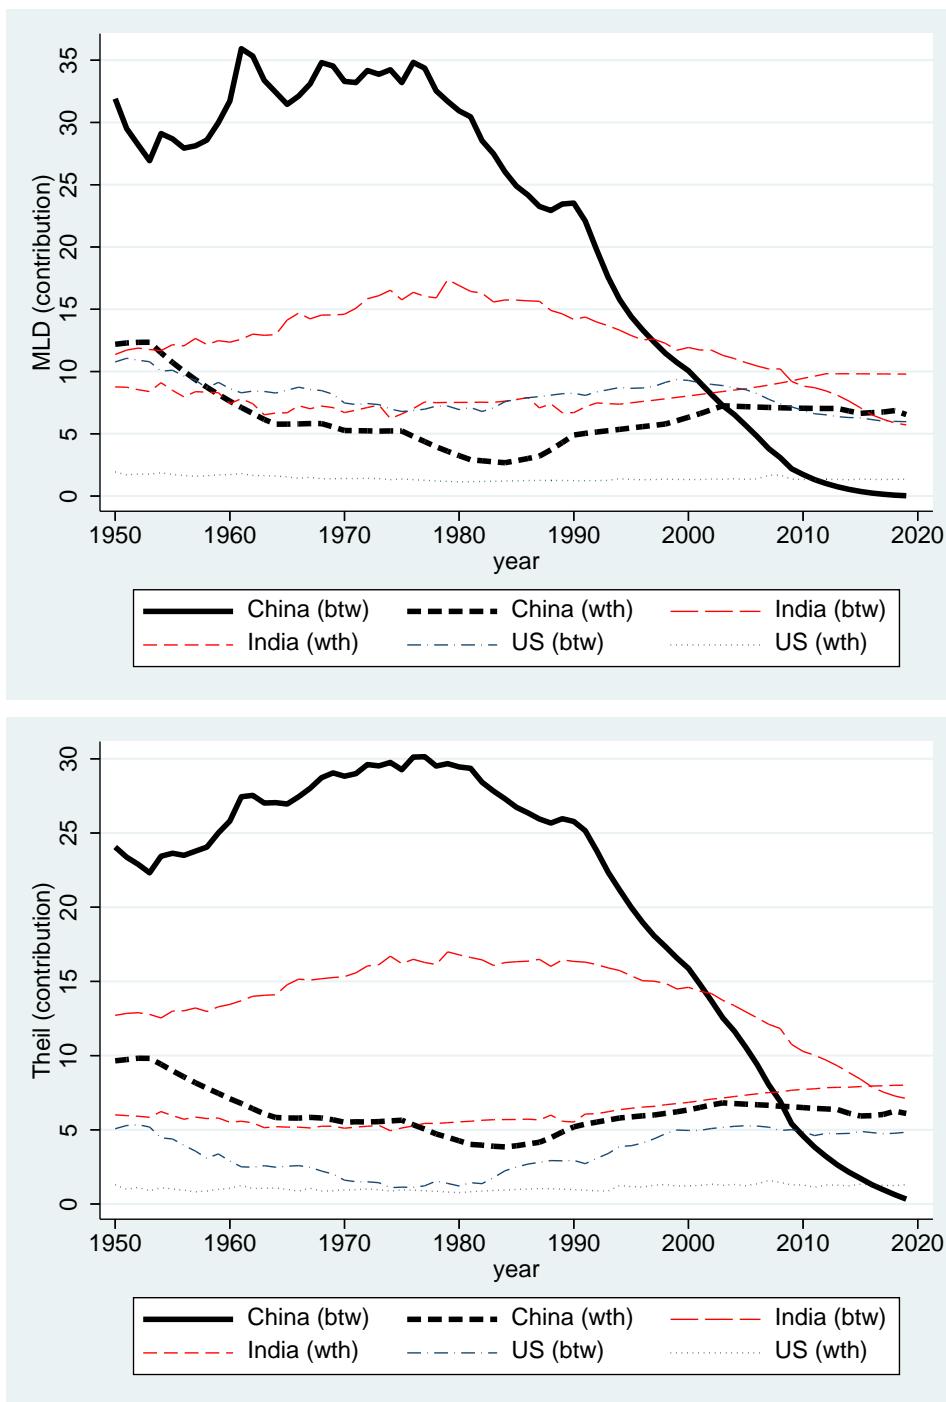

Figure G1: Country contributions to inequality by country's income group, Gini

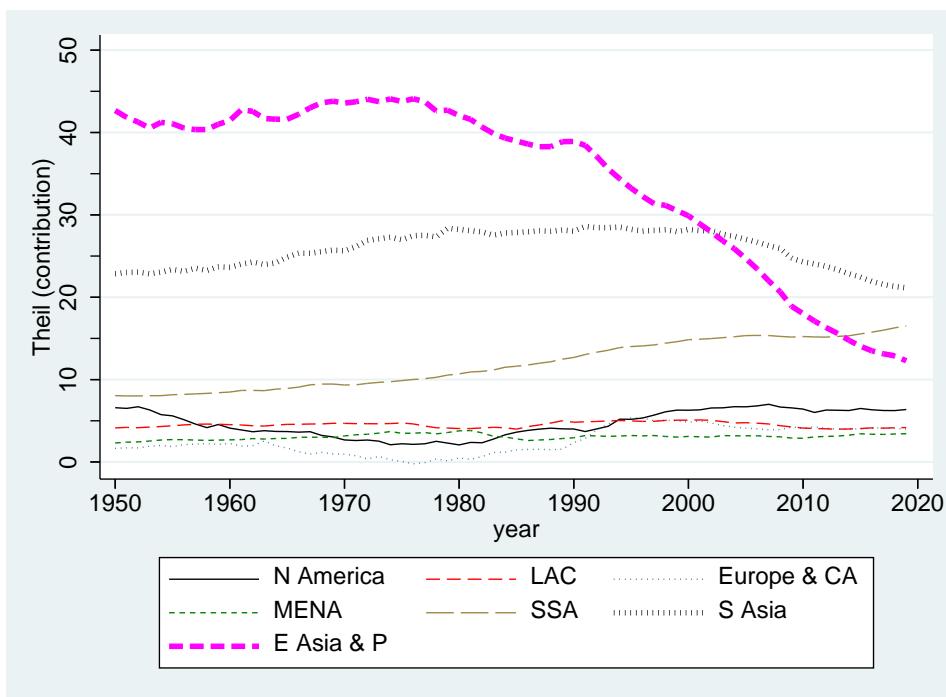

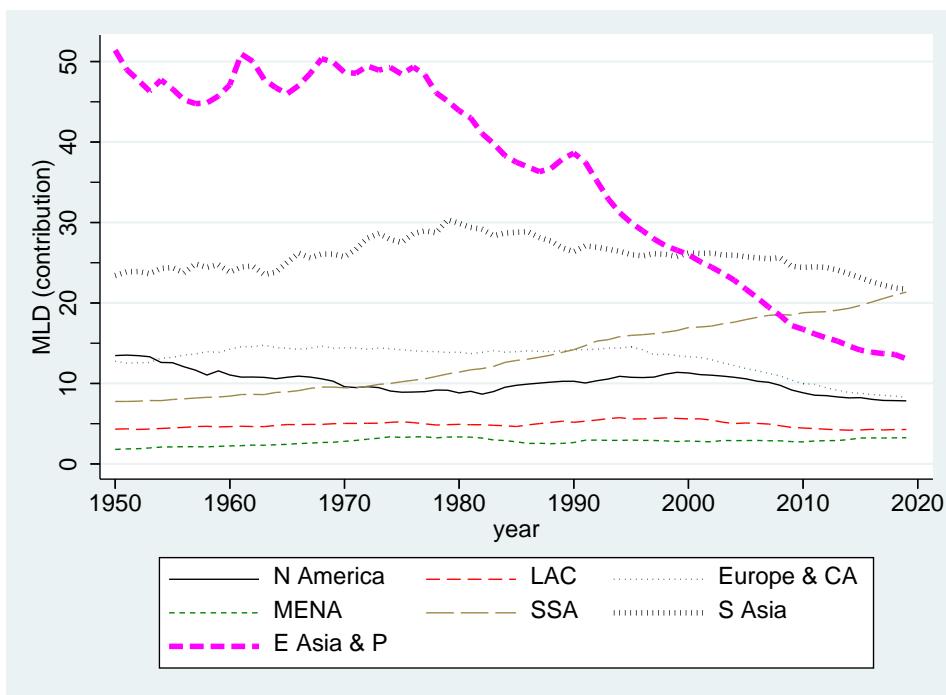

Source: author's construction based on the WIID.

Figure G2: Contribution to global inequality by country, region, and income group; MLD and Theil

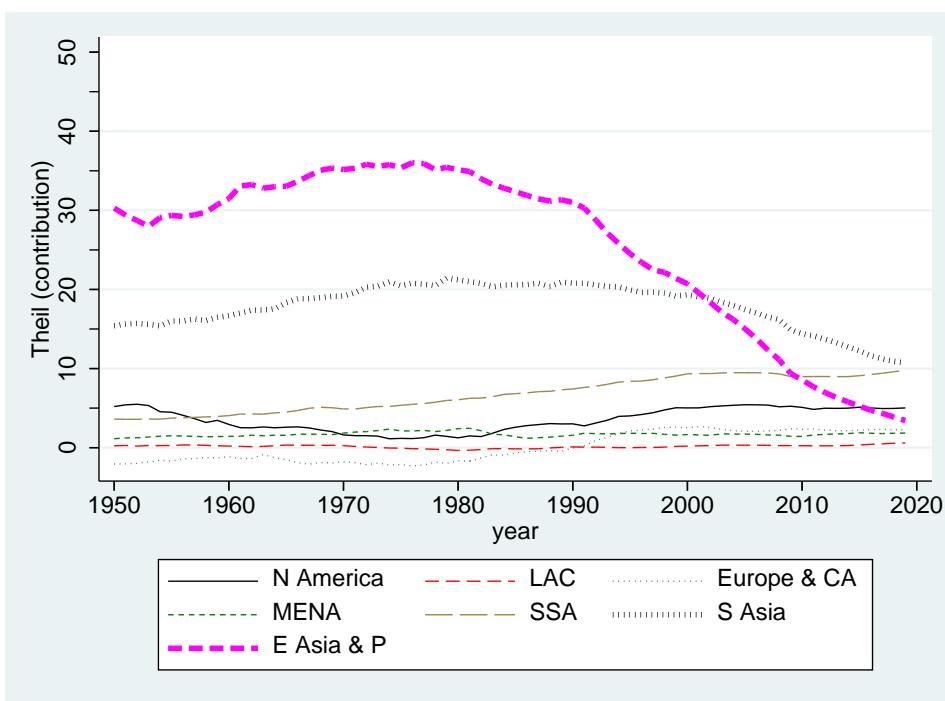

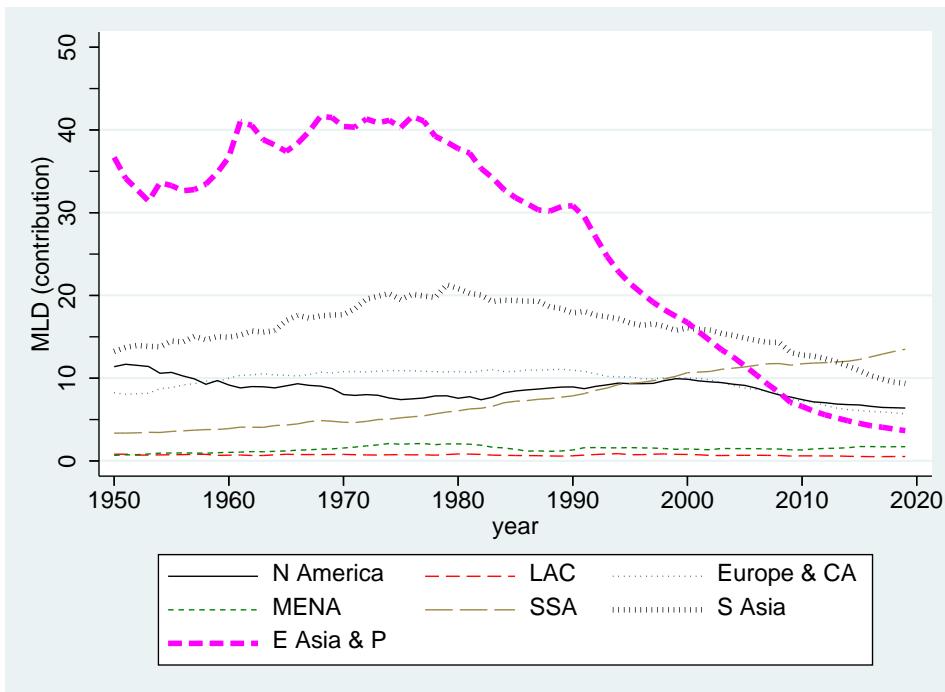

a. By country

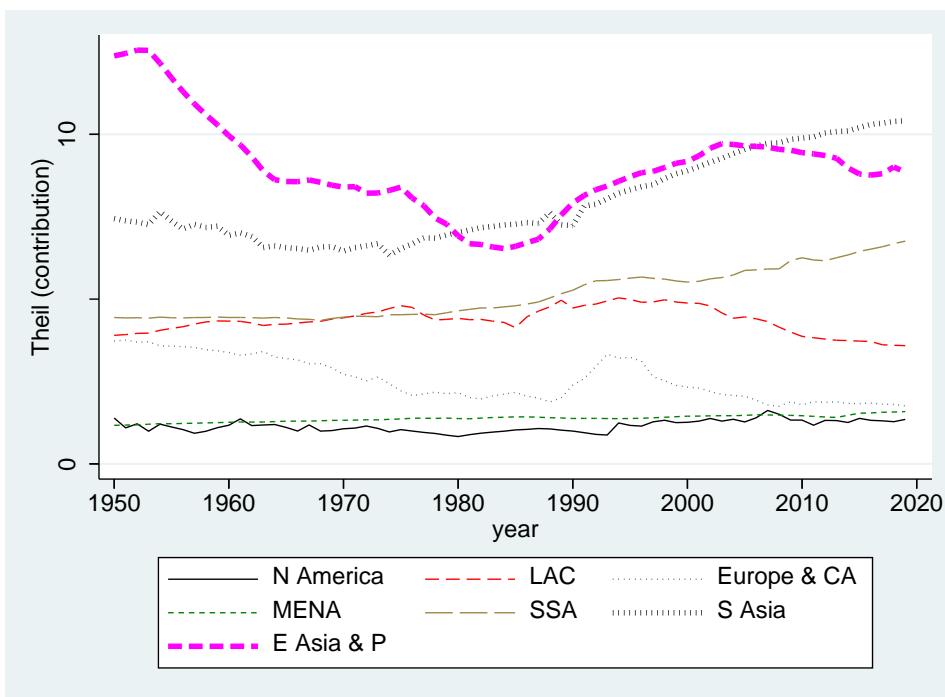

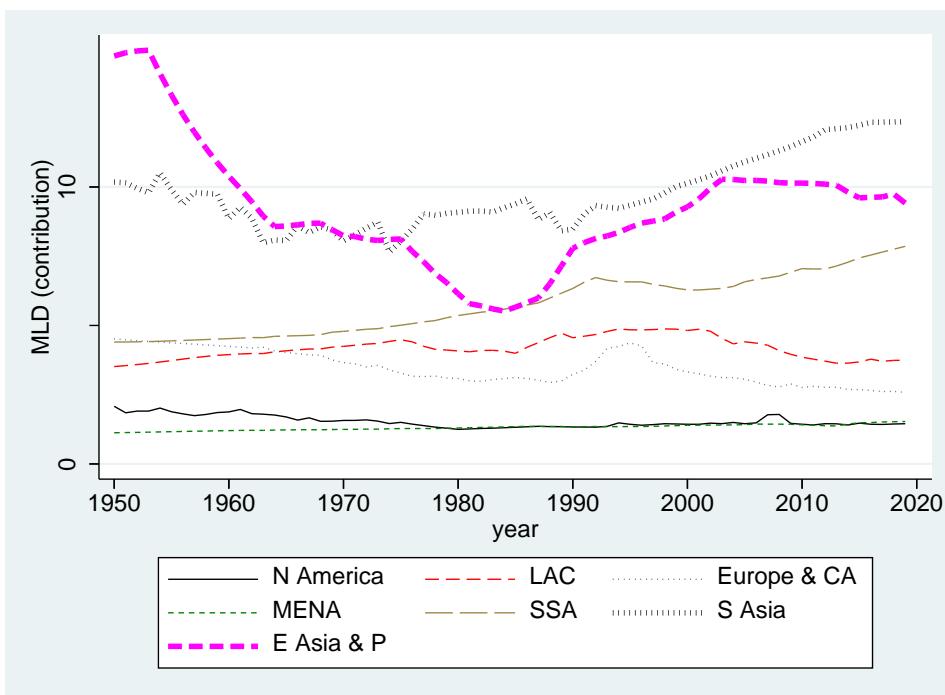

b. By region, overall

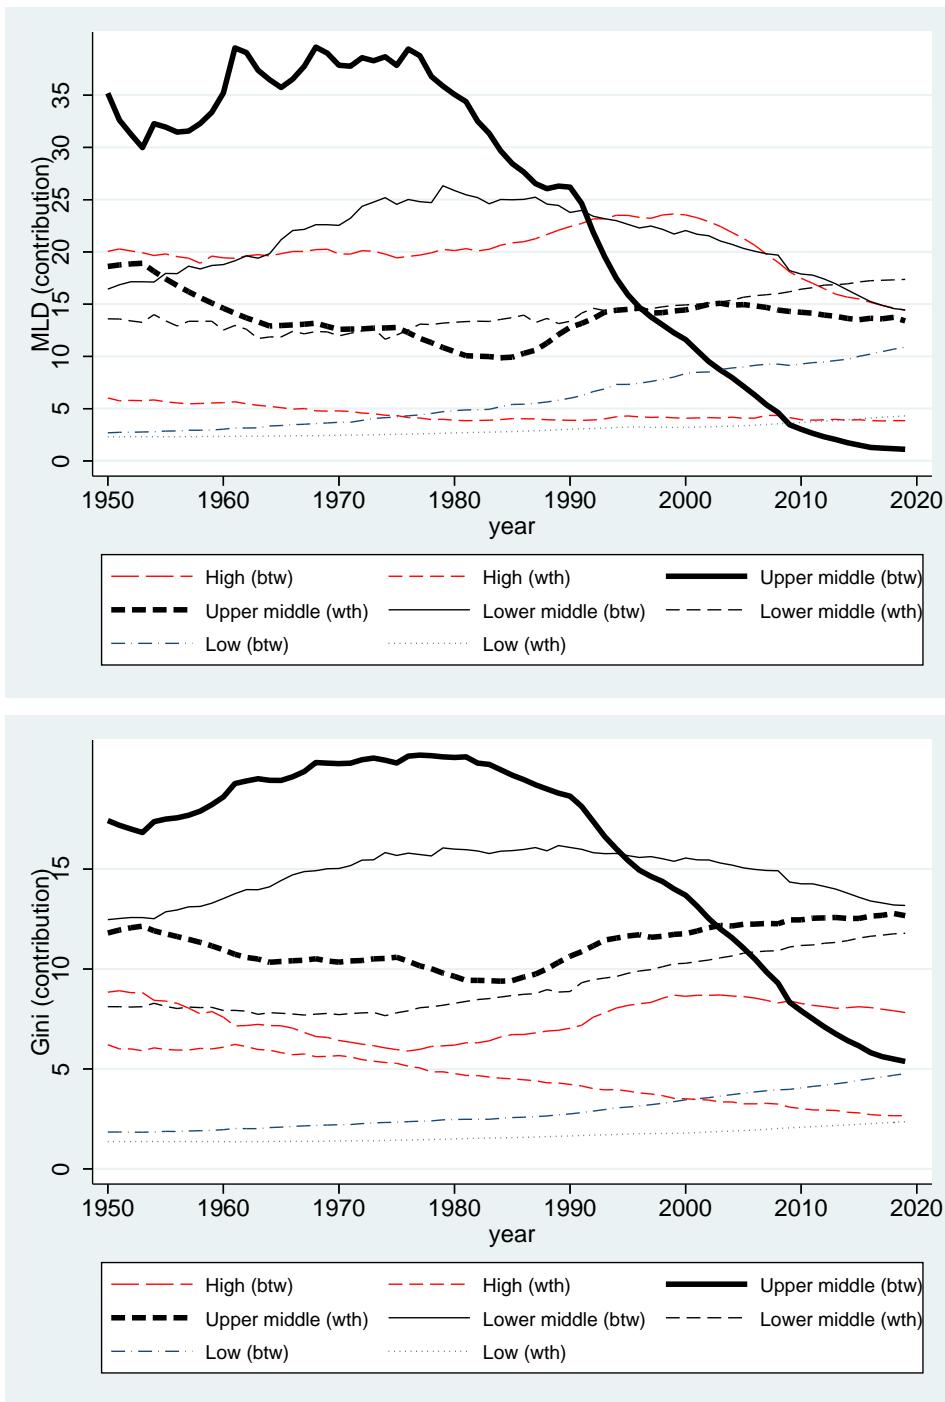

c. By region, between countries

d. By region, within countries

e. By income group

Source: author's construction based on the WIID.

Table G1: Contribution to global income inequality—changes over time by geographical region and selected countries, MLD index
